SUMMARY

I am a Frontend Engineer who is passionate about designing and developing user-friendly web interfaces. Proficiency in React.js, TailwindCSS, CSS, and JavaScript, I have gained experience through personal projects and internship at Rivers State ICT Department. I'm eager to enhance my skills continuously and contribute effectively in a collaborative environment.

PROFESSIONAL EXPERIENCE

Frontend Intern   08/2023 – 11/2023
Rivers State ICT Department
Key Responsibilities
- Assisted students during training sessions, providing guidance on programming concepts and web development basics.
- Collaborated with team members to support student projects and resolve technical issues.

PROJECTS

1. **Portfolio Website**
   - Built a personal portfolio using React.js vite and TailwindCSS to showcase skills and projects.
   - Implemented useRef to manage form inputs and motion to support keyframe animations, (**https://github.com/marvelchenko/portfolio**)

2. **TodoList App:** Developed a TodoList application using React.js to help users manage tasks efficiently, (**https://github.com/marvelchenko/Todo-List**)

3. **Random Quotes Generator:** Designed and coded a Random Quotes generator using React.js, CSS and FontAwesome, (**https://github.com/marvelchenko/random-quotes**)

4. **Quiz App**: Created a multiple-choice quiz application with a scoring system using React.js and CSS, (**https://github.com/marvelchenko/quiz-app**)

5. **Ecommerce Website:** Built an Ecommerce website with React.js and CSS, focusing on clean design and user experience, (**https://github.com/marvelchenko/e-commerce**)

6. **Expense Tracker:** Built an Expense Tracker App to help manage your expense, ensuring the application is user friendly using React.js vite and TailwindCSS, (**https://github.com/marvelchenko/expenseTracker**)

7. **Music Player:** Built a Music Player App with React.js, CSS and Bootstrap to help users play songs, the app is responsive both in mobile and desktop view, you can switch songs from previous to next, (https://github.com/marvelchenko/music-player)

CORE COMPETENCIES AND SKILLS

Communication | Customer Service | Time Management | Teamwork | Attention to Detail | Adaptability | Analytical Skills | Debugging and Troubleshooting | Technical Knowledge Writing | Critical Thinking | Adaptability

TECHINCAL SKILLS

HTML | CSS | Javascript | Reactjs | TailwindCSS | Bootstrap | Git

EDUCATIONAL QUALIFICATIONS WITH DATES

- ***B.Sc (Computer Science)***   Oct, 2017
  Rivers State University, Port Harcourt
- ***West African Senior School Certificate Examination (WASSCE)***
  Federal Science and Technical College, Ahoada

ADDITIONAL CERTIFICATIONS

Intro to ITIL   Sept, 2024

CWG Academy, Lagos

- Managing changes in the IT environment to ensure that changes are recorded, evaluated, approved, and implemented with minimal risk to services.
- Identifying the root cause of recurring incidents and working to prevent future occurrences.
- Maintaining an accurate inventory of the IT infrastructure, including hardware, software, and network configurations.

Intro to JavaScript   September, 2024

Coursara

- Writing JavaScript to enhance the interactivity of web pages.
- Interacting with and modifying the Document Object Model (DOM), using JavaScript to select, add, remove, or modify HTML elements and attributes to update the web page dynamically in response to user actions

React Basics   November, 2024

(Coursara)

- Understanding functional components and props.
- Managing component state using useState.
- Adding and managing event handlers like onClick, onChange, etc.
- Handling form submissions and controlled components.
- Applying inline styles, CSS classes, or using CSS-in-JS libraries.
- Setting up navigation using React Router

National Youth Service Corps (NYSC)   April, 2019

Solid Foundation Secondary and Primary School

Izombe, Oguta LGA, Imo State

ADDITIONAL INFORMATION

- Availability for remote or in-office positions.
- Continuously building new projects to enhance technical proficiency.
